

STRUCTURED SETTLEMENTS

Structured settlements don't just represent a payment schedule – they are the result of detailed negotiation. Vervent's expertise in this niche industry makes us well-equipped to handle the nuances of structured settlement servicing. Our team is skilled in navigating complex and highly regulated processes and capable of meeting the unique payment distribution requirements that go along with this asset class. Plus, our strict compliance protocols and adherence to industry regulation helps to safeguard your investment.

Across all settlement types, Vervent supports proper account management and beneficiary payment with:

- Account & Portfolio Setup
- Customer Service & Collateral Management
- Payment Distribution & Collections
 - Including Lockbox Management, Procedures & Transfers
- Contract Accounting
- Cash Application & Treasury
- Tax & Legal Reporting
- Receivables Tracking
 - Including Lottery Receivables
- Life Contingent Structured Settlements & Death Tracking

We also offer:

DOCUMENT CUSTODIAL & EVALT SOLUTIONS

That are especially designed to support structured settlements needs.

Why choose Vervent as your Structured Settlements partner?

Experience

We've been in this business for 35+ years, have 6 Vervent-operated service centers around the globe and are committed to the success of our industry-leading partners

Customer Service

With staff that knows structured settlements and works with them every day, we have all aspects of servicing your structured settlement covered

Taxation & Legal Reporting

While structured settlements are designed to be tax free, there is a vast amount of documentation and industry regulation surrounding them. We will partner with your legal and tax firms to capture and streamline needed documentation and filings

Credibility

As an experienced and credible Capital Markets and Loan Servicing company, Vervent has the licenses, compliance oversight, and ethics to manage your structured settlement needs

Fund Flow Expertise

We have the know-how and relationships to manage, track, and appropriately disperse funds via the required chain of custody. So, we have you covered from asset tracking, to lockbox transfer to final payoff or purchase

With decades of experience, our high-powered team brings a full spectrum of insight and expertise to create effective, meaningful solutions that support business growth.
